## IMPORTANT INFORMATION

For more information on the Northern Trust ESG Vector Score please click [here](#).

About Sustainable Investing - At Northern Trust Asset Management ("NTAM"), we define Sustainable Investing as encompassing all of NTAM's investment strategies and accounts that utilize values based and norms based screens, best-in-class and ESG integration, or thematic investing that may focus on a specific ESG issue such as climate risk. NTAM's Sustainable Investing includes portfolios designed by NTAM as well as those portfolios managed to client-defined methodologies or screens. As the data, analytical models and aforementioned portfolio construction tools available in the marketplace have evolved over time, so too has NTAM. NTAM's Sustainable Investing encompasses strategies and client assets managed in accordance with client specified responsible investing terms (historically referred to as Socially Responsible), as well as portfolios that leverage contemporary approaches and datasets, including ESG analytics and ESG thematic investing.

Currently, there is a lack of common industry standards relating to the development and application of ESG criteria. The subjective value that investors may assign to certain types of ESG characteristics may differ substantially from that of the assessment by a data provider. Investors can differ in their views of what constitutes positive or negative ESG characteristics. The Northern Trust ESG Vector Scores may not reflect the beliefs and values of any particular investor. Northern Trust Asset Management (NTAM) relies on various sources of information regarding an issuer, including information that may be based on assumptions and estimates. ESG information from third-party data providers may be incomplete, inaccurate or unavailable. NTAM cannot offer assurances that the Northern Trust ESG Vector Score methodology or sources of information will provide an accurate assessment of the issuers of securities. NTAM uses third-party data that it believes to be reliable, but it does not guarantee the accuracy of such third-party data. Data can vary across providers or within industries. ESG standards differ by region and industry, and a company's ESG practices or NTAM's or data providers' assessment of a company's ESG practices may change over time.

NTAM provides the information and data ("Information") included herein in good faith but no advice, representation or warranty, express or implied, is made by NTAM, its affiliates or by any person as to its adequacy, accuracy, completeness, suitability, reasonableness or that it is fit for your particular purpose, and it should not be relied on as such. The Information does not purport to be complete and is subject to change. You acknowledge that certain Information may be incorrect or incomplete, and such information is provided on an "AS IS" basis. NTAM reserves the right to change, modify, add, or delete, any Information, but does not make a commitment to update the Information provided herein. The Information included herein may include technical inaccuracies or typographical errors. NTAM and its affiliates have not made, and expressly disclaims, any representations with respect to any forward-looking statements. By their nature, forward-looking statements are subject to numerous assumptions, risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future.
